

Magaya AIR eBOOKING

Air Rates for Magaya Rate Management

Bring your quoting and procurement process to new heights in efficiency with Magaya with easy access to rates from all major airlines. Air eBooking for Magaya Rate Management provides an efficient solution to retrieve and compare schedules, availability, and pricing in an easy-to-use, cloud-based solution. Gone are the days of searching across multiple sources for multi-modal rates. Now you can save time and win more business with faster quotes and the most rates, right at your fingertips.

Increase Efficiency

Searching for rates across multiple websites, emails, contracts, and spreadsheets takes time. Increase efficiency and dramatically accelerate your time-to-quote.

Access More Rates

In addition to managing ocean, rail, and road rates with Magaya Rate Management, you can now access and compare rates, schedules, and capacity for more than 95 airlines, enabling rapid decision-making.

Win More Business

In a competitive market, freight forwarders not only have to offer superior value, you also must act *fast*. Respond to more quotes, faster, with a control tower that puts all the information your operators need within easy reach.

RATES & BOOK API*

- Forwarders must have IATA CASS registration for the Rates & Book API to return rates
- Live access to rates & capacity from airlines & GSA partners
- Real-time schedule & routes
- Availability & pricing data
- Secure capacity & book rates
- Range of options: Tailored to all types of airfreight, commodities, load types, upload of customers' market & contract rates

- Calculate the CO2 emissions of your shipment
- All booking information is sent back to Magaya systems

TRACK & TRACE API

- Integration with other Magaya systems

**Solutions are open to all airlines & GSAs with NO conflict of interest in the carrier / forwarder selection. Magaya does not hold exclusivity with any airlines, has no preferred partner and no margin is being added to the rates.*

Magaya AIR eBOOKING & TRACKING

Air Freight Booking and Shipment Tracking for Magaya Supply Chain

The Air eBooking and Tracking integration for Magaya Supply Chain elevates your air freight booking and shipment tracking capabilities. You can stay updated with access to their latest status and events directly from within the events tab of your Magaya Supply Chain booking or shipment. There's no need for an Air eBooking account when you have a valid AWB number.

Increase Visibility

Track your air freight bookings and shipments to stay up to date on their status and events directly within your Magaya Supply Chain system.

Seamlessly Integrated

Experience a seamless transfer of air freight booking statuses, shipment statuses, and events.

Improve Productivity

Utilize a single system to check on the status of your booking or shipment within Magaya Supply Chain, eliminating the need to access several airline websites.

Air Rates and Book API for Magaya Supply Chain*

Leverage the best air cargo rates in the market to supercharge your quoting and procurement process. With the Air Rates and Book API for Magaya Supply Chain, you benefit from an efficient means of retrieving and comparing schedules, availability, and pricing, as well as booking and tracking air freight shipments – all in one place. You'll no longer have to spend hours searching across multiple sources for air freight rates again: now, you can obtain the most competitive air freight rates and eliminate inefficient data silos.

- Live access to airline rates & capacity
- Real-time schedule & routes
- Availability & pricing data
- Secure capacity & book rates
- All booking and shipment information is automatically synced with Magaya systems

Solutions are open to all airlines & GSAs with NO conflict of interest in the carrier / forwarder selection. Magaya does not hold exclusivity with any airlines, has no preferred partner and no margin is being added to the rates.
